E. at 6:30 p. m. in the chapel.

WILL ADVERTISE BIG GAME

Ad Club and County Organization Will Boost University.

The Ad Club is making its plans for boosting and advertising the University this year on as big a scale as will be possible from the opportunities afforded. The club will act as a reception committee for the Missouri-Kansas football game. President Hill has asked that the club do all it can through the various county clubs to advertise the game and make it a home-coming for the alumni and a visiting time for the home-folks and friends.

Several county clubs have already re-organized and elected their new officers. The president elected by a county club becomes a member of the Ad Club unless a special representative is chosen. Those clubs that have organized are beginning the work of advertising the University "back home." Several more county clubs will meet during next week. The officers of the Ad Club are eager to have all the old clubs re-organize as soon as possible and to have the new clubs formed that have not organized before.

The Ad Club will have its first meeting in about two weeks. The meeting will be a banquet for all honorary and old and new members. The honorary members now in Columbia are President A. Ross Hill, Dean Walter Williams, Dean W. W. Charters, Dean F. B. Mumford, J. A. Gibson, J. E. Chasnov, and D. C. McVay. At this meeting plans for the year's work will be discussed and committees appointed to carry out the program.

NOW IT'S THE ARMY WORM

Another Pest is Bothering Missouri Farmers.

The green bugs are not the only pests bothering the Missouri farmers now. Every day T. C. Wilson, secretary of the State Board of Agriculture, is receiving letters from farmers wanting to know what can be done to stop the ravages of the fall army worm on wheat and rye. One farmer reports that within a day or so the army worms had eaten up forty acres of his wheat and were about to get away with twenty acres more. These complaints come from all over the state, but they seem to be worse in the southwest part of the state. Mr. Wilson says he has seen some around Columbia, but the birds keep them down here.

"As well as I can remember," said Mr. Wilson, "the fall army worm has never appeared in this state in such great numbers before. The great numbers of these worms this year is due to the unusual hot and dry weather we have had this last summer. This dry weather has prevented the growth of a parasite that is a natural enemy of the fall army worm, which, when the weather is normal, destroys it."

According to Mr. Wilson, the only way to get rid of the pests after they have invaded a field is to go over the ground with a heavy roller. They may be kept out of a field by plowing furrows toward the field to be protected. The worms will crawl into this ditch, but cannot climb out on the smooth side. Then they may be destroyed.

IT TELLS US OF M. U. APPLIES

Dean Mumford Receives Report on Experiment Stations.

F. B. Mumford, dean of the College of Agriculture, has received a copy of the last annual report of the office of experiment station, published by the United States Department of Agriculture. It consists of a report of the work and expenditures of agricultural experiment stations in all the states and territories and in several foreign countries.

It includes a report from the Missouri agricultural college experiment station, describing the work, improvements, appropriations, expenditures and the like for the year ending June 30, 1910. In the horticultural department mention in detail was made of the methods of frost protection and spraying employed here. Last year the college sprayed an acre of Jonathan apples in a commercial orchard near Columbia, and this sprayed acre produced more marketable apples than the remaining 139 acres which were not sprayed.

PROBLEMS OF MINISTERS

Bible College Students Will Hear First-Hand Experiences.

To enable its students to realize the difficult problems a minister has to solve, the Missouri Bible College will hold weekly conferences to which pastors of the churches in town, educators, professional men and others will be invited. These men will talk to the students of life from different points of view so as to help them learn how to adjust their relation as ministers to their parishioners.

The first conference will take place next Monday night, when

Grant Lewis, home secretary of the American Christian Missionary Society, will be here to lead the discussion. Mr. Lewis will also speak at the Christian Church next Sunday.

At the meeting of the executive board of the Bible College last night, Prof. C. E. Underwood was appointed a delegate to attend the meeting of the Christian Educational Association to be held at Des Moines, Ia., next month. The association has for its membership all educational institutions founded by the church of the Disciples in America.

LOW RATES FOR K. U. GAME

Round-trip From St. Louis and Kansas City Will Be \$3.75.

Few of the alumni will be able to put up an excuse for not coming to see the Missouri-Kansas football game, Nov. 25, that they "can't afford the trip." The railroads have made rates that are surprisingly low. They have agreed to run special trains—and enough of them to accommodate all the traffic—and will run them so that the greater part of the crowd will arrive here Saturday morning and leave Saturday night after the game.

This last feature may not be so agreeable to the hotel keepers of Columbia, but it will permit not only the man who is feeling poor but also the man who "can't spare the time" to come down for the day, see the game, his old University and classmates, and then get back to St. Louis or Kansas City in time for church.

The rate that the railroads have agreed upon is \$3.75 round-trip from St. Louis and Kansas City on trains arriving in Columbia Friday night or Saturday morning. A proportionate rate will be charged from the intermediate stations on the line, and also those on the Wabash branches as far north as Kirksville and as far along the Omaha branch as Maryville. The round trip from all parts of the state will be practically the fare one way.

C. L. Brewer, director of athletics of the University, conducted the negotiations with the railroads. He expressed himself as well pleased with the liberality shown, and believed that it was good evidence that there would be a monster crowd here for the game.

A Savitar Representative Named.

J. O. Peeler, a Junior in the School of Medicine, was elected Savitar representative from his department Friday night. He is to take the place of H. L. Smith, who has resigned. At the same time officers of the Junior Medics were chosen as follows: President, E. L. Spence and secretary-treasurer, H. M. Williamson.

You Want a Book?

And have been delayed in getting it? Perhaps because the stock was sold out when you tried to buy? Or the book you want never was in stock? The Missouri Store can get any book for you, and get it quicker. And, then, you are sure you will get it. Adv.
